

Metodisk kvalitetsvurdering av systematisk oversikt

Rigmor C Berg

Kurs H, desember 2020

Fremgangsmåten

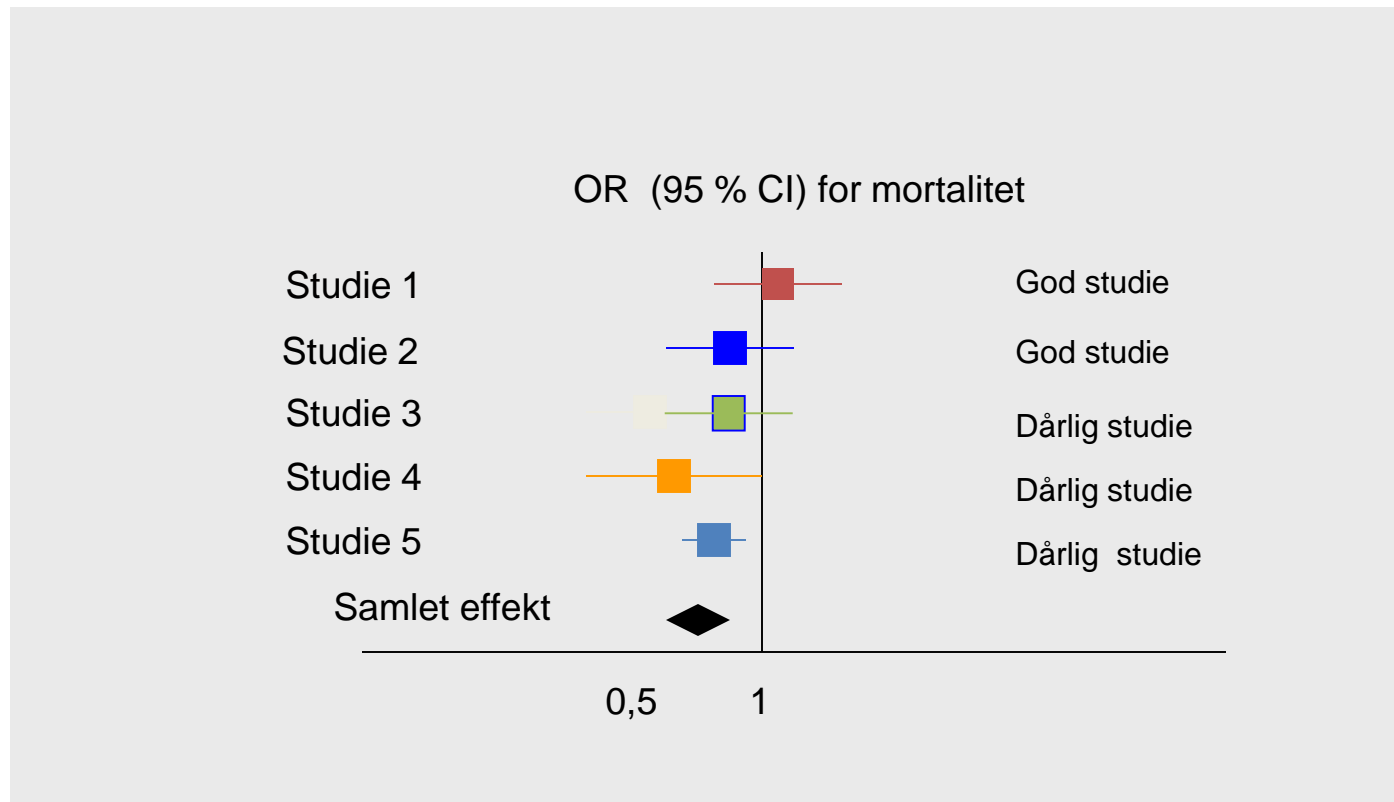

Kunnskapssenterets håndbok 2014; Cochrane handbook 2011

Kritisk vurdering av kunnskapskilden

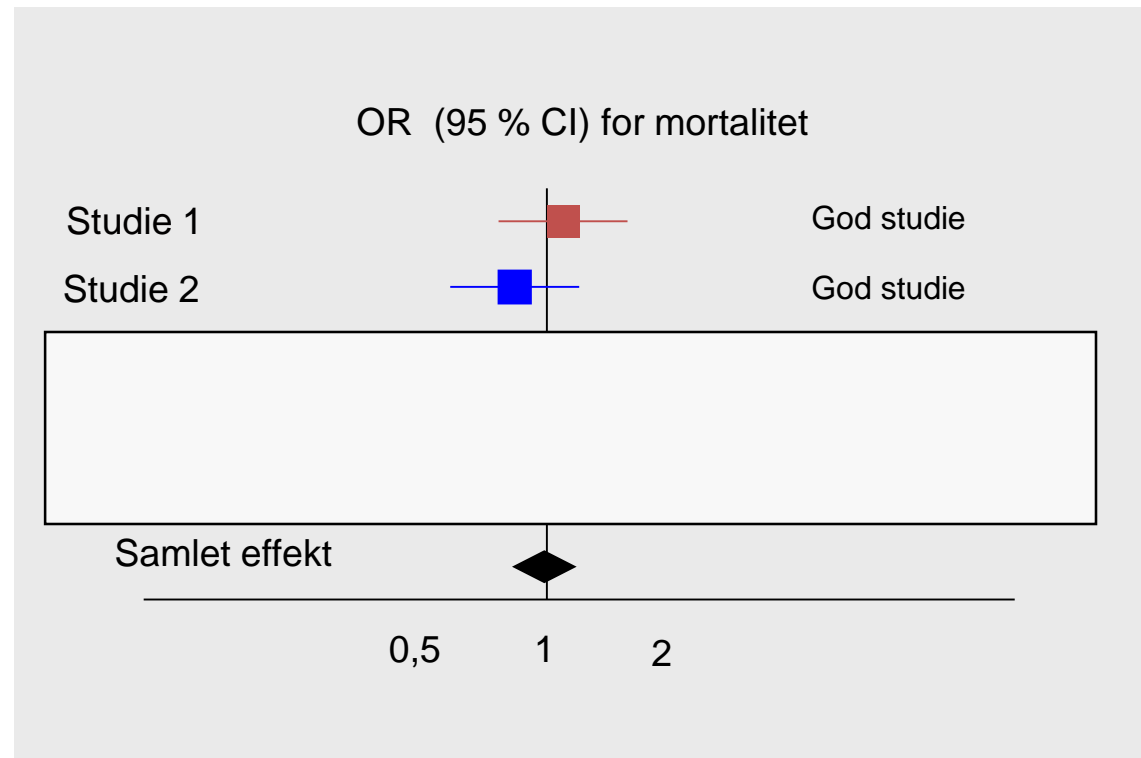

- 3 sentrale spørsmål:
 1. Kan jeg stole på resultatene? (Intern validitet)
 2. Hva forteller resultatene? (Statistikk)
 3. Kan jeg applisere resultatene på min pasient? (Ekstern validitet)
- Sjekkliste er nyttig verktøy

Vurdering av metodisk kvalitet

Vurdering av metodisk kvalitet

hva er
god og
dårlig?

Sjekklister for SRer

- AMSTAR (A Measurement Tool to Assess Systematic Reviews. Canada)
- CASP (Critical Appraisal Skills Programme. UK)
- Users' Guides (JAMA/Journal of American Medical Association. US)
- CEBM Checklist (Center for evidence-based Medicine)
- JBI checklist for SRs (Australia)
- FHI sjekkliste (basert på andre)

10 questions to help you make sense of a review

How to use this appraisal tool

Three broad issues need to be considered when appraising the report of a systematic review:

- Are the results of the review valid? (Section A)
- What are the results? (Section B)
- Will the results help locally? (Section C)

The 10 questions on the following pages are designed to help you think about these issues systematically.

The first two questions are screening questions and can be answered quickly. If the answer to both is “yes”, it is worth proceeding with the remaining questions.

There is some degree of overlap between the questions, you are asked to record a “yes”, “no” or “can’t tell” to most of the questions. A number of prompts are given after each question. These are designed to remind you why the question is important. Record your reasons for your answers in the spaces provided.

These checklists were designed to be used as educational tools as part of a workshop setting

There will not be time in the small groups to answer them all in detail!

Oppgave

- Utfør metodisk kvalitetsvurdering av SR «Efficacy of face mask in preventing respiratory virus transmission: A systematic review and meta-analysis» Liang 2020. Bruk CASP sjekkliste, del A
