

Multidisciplinary Symposium in Thyroid and Parathyroid Diseases
Auditorium Forskningsbygget, Radiumhospitalet
Friday 22. april 2022 kl. 09.00 – 16.00

PROGRAM

Chair: Kristin Astrid Øystese / Inga Karsrud

09.00 - 09.10: Welcome - Introduction

Else Marie Opsahl, Section for Breast- and Endocrine Surgery, Oslo University Hospital

09.10 - 09.30: Diagnostics in medullary thyroid carcinoma

Eva Sigstad, MD, PhD, Department of Pathology, Oslo University Hospital

09.30 - 09.50: Multiple endocrine neoplasia type 2, optimal time and extent of prophylactic thyroid surgery

Else Marie Opsahl, MD, PhD, Section for Breast- and Endocrine Surgery, Oslo University Hospital

09.50 - 10.20: Surgical treatment in medullary thyroid carcinoma, the strategy of today

Kerstin Lorenz, MD, Professor, Department of Endocrine Surgery, University Hospital in Halle, Germany

10.20 - 10.40: Coffee break

10.40 - 11.10: Minimal invasive follicular thyroid carcinomas: prognostic factors

Jan Zedenius, MD, Professor, Department of Molecular Medicine and Surgery, Karolinska University Hospital, Stockholm, Sweden

11.10 - 11.40: «Less is beautiful» Sufficient treatment in patients with low risk differentiated thyroid carcinoma

Kerstin Lorenz, MD, Professor, Department of Endocrine Surgery, University Hospital in Halle, Germany

11.40 - 12.10: Molecular genetics of thyroid tumours and surgical decision-making

Jan Zedenius, MD, Professor, Department of Molecular Medicine and Surgery, Karolinska University Hospital, Stockholm, Sweden

12.10 -13.10: Lunch

RADIUM
HOSPITALET'S
LEGATER

The symposium is arranged with economical support from the Norwegian Radium Hospital's Endowments for Research at Oslo University Hospital

Chair: Eva Sigstad / Heidi Ødegaard

- 13.10 - 13.30: Alemtuzumab-induced Thyroid Disease
Elisabeth Celius MD, Professor, Department of Neurology, Oslo University Hospital
- 13.30 -13.50: Surgical treatment in patients with Graves` disease, Amiodarone-induced and Alemtuzumab-induced thyroid disease
Inga Karsrud, MD, Section for Breast- and Endocrine Surgery, Oslo University Hospital
- 13.50-14.10: Subacute thyroiditis after covid 19 infection
Eirik Tjønnfjord MD, Department of Haematology and Endocrinology, Sykehuset Østfold, Kalnes
- 14.10-14.30: Experience with Cholin PET-CT in primary hyperparathyroidism at Sykehuset Østfold, Kalnes
Eskil Fluge, MD, Section for Breast- and Endocrine Surgery, Sykehuset Østfold, Kalnes
- 14.30-14.50 Coffee break
- 14.50-15.10: Renal hyperparathyroidism. Pathophysiology and medical treatment before and after kidney transplantation
Hege Pihlstrøm, MD, PhD, Department of Nephrology, Oslo University Hospital
- 15.10-15.30: Surgical treatment of renal hyperparathyroidism
Kerstin Lorenz, MD, Professor, Department of Endocrine Surgery, University Hospital in Halle, Germany
- 15.30-15.50: Eurocrine®; experiences and results in Norway 2021
Marit Hansen, MD, PhD, Section for Breast- and Endocrine Surgery, The University Hospital in North Norway
- 15.50-16.00: Closure
Else Marie Opsahl, Section for Breast- and Endocrine surgery, OUH

Program Committee:

Pernilla Olsson, Section for Breast- and Endocrine surgery, Sykehuset Innlandet, Hamar

Kristin Astrid Øystese, Department of Endocrinology, OUH

Eva Sigstad, Department of Pathology, OUH

Else Marie Opsahl, Section of Breast- and Endocrine surgery, OUH.
