

THE SSY ENGINE WEB-VERSION!

How can we set the Target IOP in glaucoma patients who are progressing at unsafe rates?

It is not intuitive and needs to be individualised.

We invite you to participate in a webcast with professor Anders Heijl

We will discuss the scientific background, how the SSY Engine works, the caveats and how it can benefit clinical practice.

12th November 2020, 19:00-20:00 (GMT+1)

10th December 2020, 16:00-17:00 (GMT+1)

21st January 2021, 19:00-20:00 (GMT+1)

Register to the webcast at least an hour before the event.

AbbVie is a research-driven biopharma company with the mission to discover and develop new innovative medicines that solve serious health issues today and tomorrow. We focus on eye care, immunology, oncology, neuroscience, virology and the Allergan Aesthetics portfolio. In Scandinavia, we are about 330 employees with offices in Stockholm, Oslo and Copenhagen. All three countries are ranked as a top employer by Great Place to Work.

SSY Engine is a guidance tool for HCPs and should not be used as a substitute for medical knowledge and experience. Developed, registered and distributed by Careful Apps under a license by Allergan. Besides the cloud-based web version, it is available as an app for iPads and Android tablets.
