En god kollega

- Til tross for velfortjent ferie kommer fra Andre følgende SMS:

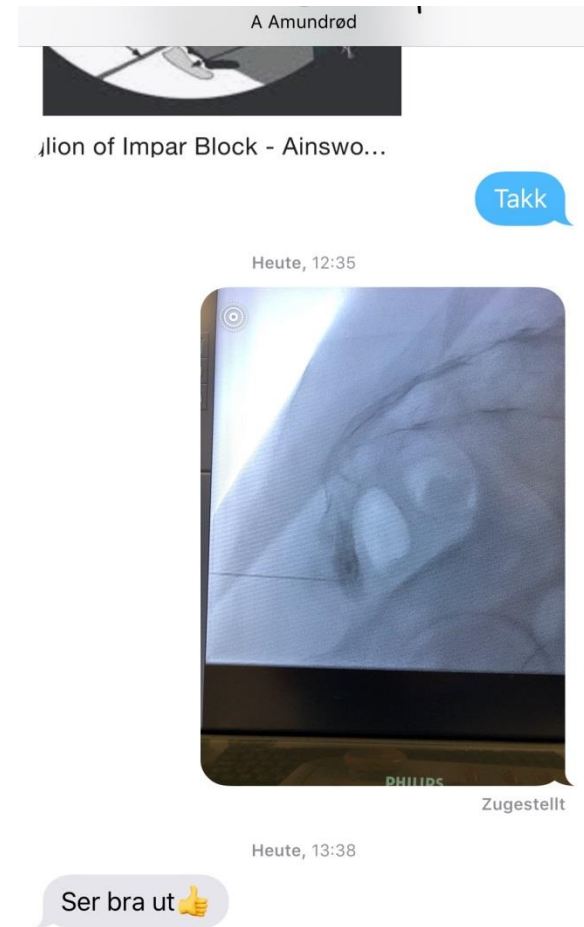

Tilleggs info fra youtube

- <https://www.youtube.com/watch?v=WK26v3zA80w>
- Ingen ledig CT
- Behandlingen gjøres derfor gjennomlysningssveiledet

Feedback

- Både røntgenbilde og SMS ga lovende tilbakemeldinger

Resultat

- 13.07.18: Litt bedre (psykisk? –grunnet stort positivt forventningspress?)
- 14/15.07.18: Samme smerter som før
- Ingen bedring i videre forløp
- 21.08.18 nytt suicidalforsøk
- 06.03.20 fortsatt varierende smerter i bekkenet

Oppsummering

- Ved hjelp av gode kollegaer og dr GOOGLE mulig å tilby prosedyrer som er sjeldne
- Selv om en prosedyre er teknisk vellykket betyr det ikke at pasienten har det bedre
